Packing & Shipping Instructions

To prepare your film for shipment, you can either prepare the films and package them yourself, or take them to a packaging and shipping vendor, such as Mail Boxes Etc. (www.MBE.com). Here are some guidelines if you choose to package the film yourself.

- 1) INSURE your FILMS!! Digital Montage Films is not liable for lost or damaged films or tapes. Be sure to get a tracking number.*
- 2) Make sure your films are numbered in the order you want them to be transferred.*
- 3) Wrapping or enclosing the films in plastic bags ensures the films will arrive dry.*
- 4) Pack the films in a sturdy, preferably double-walled cardboard box, using plenty of packing material.*
- 5) Make sure you have enclosed the order form inside the box.*
- 6) Please do not ship your films in crumpled newspaper. (This is not the best packing material,*
- 7) DO NOT label your films with Post-It notes. (They will come off, leaving your films unlabeled).*
- 8) Use an oversize box that will allow us to re-use the box to ship the completed films and tapes back to you. This helps us keep the shipping costs down.*

9) Make sure the address labeling on the outside of the box is clear and easy to read. For your convenience, use the shipping label that is part of this file to ship your films.
